Serving Spoon Medium Black Han

Features

Features

With a stainless steel base and high quality forged iron handle, each piece is shaped and polished by hand. Perfectly safe for the dishwasher, it will give endless years of use . All pieces sold individually, and so can be collected over time.

Composition

Stainless Steel 18/8

Specifications

Care

Wash before use. Dishwasher safe. We recommend care similar to that of plated cutlery; Do not leave wet for prolonged periods of time in dishwasher or kitchen rack, and dry thoroughly before putting away. Because of the unique forged iron finish (oxidization spots or rust) may occur if left wet. Should this occur we recommend wiping the handles with any vegetable oil to remove .

Instructions/Assembly

Before using your cutlery for the first time thoroughly hand wash in warm water and mild soap and hand dry. This is to remove any leftover residue of oxidized finish and vegetable oil from the manufacturing process. While your cutlery is dishwasher safe, we recommend care similar to that of plated cutlery. 1.Hand wash in warm water with mild soap or detergent. 2.Towel dry. Because of the unique oxidized finish of these hand forged pieces unusual spotting (oxidization) may occur if left unattended in the dishwasher cutlery rack. Should spotting occur we recommend wiping the handles with any household vegetable oil.
